6.1.2 – Does the institution have a Management Information System (MIS)?

Partial

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	<p>The university actively engages in promoting high-quality and skillful education. The senior administration has issued directives to all Academic Deans and Heads of Departments to develop new courses centered on emerging technologies and indigenous techniques. The involvement of industry professionals in curriculum design fosters a robust relationship between the industry and academia.</p> <p>Consequently, students benefit by obtaining promising job opportunities upon completing their studies. Moreover, the university is striving to introduce internationally recognized and innovative programs in the forthcoming academic years, aiming to enhance the overall quality and global appeal of its educational offerings.</p>
Teaching and Learning	<p>In order to ensure the provision of high-quality teaching and optimize learning outcomes, the university is actively engaged in recruiting proficient professors and senior academic staff members. This initiative is complemented by efforts to enhance infrastructure and laboratory facilities. Additionally, faculty members are motivated to engage in international visits and encouraged to participate in international conferences and workshops. They are also provided with new software and</p>

	<p>technical support to facilitate their teaching endeavors. Furthermore, the university strives to enrich its library resources by including new journals, magazines, and online study materials.</p>
Examination and Evaluation	<p>Usually, university implements a system of continuous internal evaluation for each course, with a distribution of 30 marks for internal assessment and 70 marks for external assessment. Internal evaluation is further divided into various components. This includes test marks derived from four tests, with the best three scores considered for a total of 18 marks. Additionally, seminars for each paper contribute 3 marks, while internal assignments, quizzes (two per paper), and attendance each account for 3 marks. Results are declared within the stipulated time frame as predetermined by the university. But During the COVID-19 pandemic, the university adapted online evaluation methods to accommodate the prevailing situation and associated restrictions.</p>
Research and Development	<p>Despite the COVID-19 pandemic, the university remains committed to promoting research and development. However, challenges arise in allocating limited funds for projects and adapting to remote collaboration. Virtual innovation programs are announced, and students participate in the incubation cell. Faculty members receive support for presenting research papers in conferences, though travel restrictions hinder international grants and publications. Additionally, the university has taken a step forward in research capabilities by establishing microbiology and phytochemistry analysis facilities at Yagyavalkya Center for Yagya Research, enabling further advancements in research and analysis despite the pandemic challenges.</p>
Library, ICT and Physical Infrastructure / Instrumentation	<p>The university has implemented a comprehensive computerized system to streamline various administrative processes. This includes the automation of the entrance and admission procedures, student attendance tracking, generation of internal marks, as well as the results and marksheets. Additionally, the university utilizes</p>

software for managing payroll and leave applications. The library is equipped with robust systems to ensure the availability of online resources, enabling students and faculty to access a wide range of scholarly materials. Furthermore, the university provides access to NPTEL courses, and online tutorials for faculty members, promoting the delivery of high-quality education.

Human Resource Management

To ensure efficient and effective recruitment processes and address staff grievances, the university has established a dedicated Human Resources (HR) division. Recruitment is conducted through open advertised vacancies, with interviews conducted by a panel comprising both internal and external members to ensure fairness and transparency. The university provides staff members with computer facilities and designated workspaces to facilitate the preparation of study materials. The HR division also oversees the management of winter, summer, and medical leaves, ensuring that proper procedures are followed.

Industry Interaction / Collaboration

The university proactively fosters technical collaboration and alliances with renowned industries in both national and international domains. Several departments, namely Journalism and Mass Communication (JMC), Tourism, Computer Science (CS), and Environmental Studies (EVS), offer professional internships to all final-year students, providing them with valuable industry exposure. The university's active interaction and collaboration with industries positively impact the placement outcomes of DSVV students, showcasing the successful translation of such partnerships into tangible career opportunities.

Admission of Students

The university maintains complete transparency in its admission procedures. The process entails a series of steps, starting with the release of an admission notification and the availability of admission forms. Subsequently, an entrance examination is conducted at prominent centers across India, followed by an interview process. The final selection list is then prepared based on merit

and relevant criteria. In accordance with the directives of the Uttarakhand Government, the university strictly adheres to the prescribed Uttarakhand state quotas. Moreover, the entire admission process is designed to align with the guidelines set forth by the UGC.

Renewable Energy Integration: As part of its commitment to sustainability, the university has adopted solar power as an effective solution for energy conservation. By harnessing solar energy, the entire campus reduces its reliance on non-renewable energy sources, thereby minimizing its environmental impact and contributing to a greener future.

Biodiversity-Rich Campus: The university takes pride in its lush green campus, which attracts visitors with its diverse range of flora and fauna. Exotic birds, vibrant flowers, enchanting butterflies, and rare plants thrive within the campus, contributing to the preservation of biodiversity and providing a harmonious natural environment for the university community.

Carbon Footprint Reduction: The university actively implements measures to minimize its carbon footprint through the principles of Reduce, Reuse, and Recycle. For instance, paper waste is recycled and transformed into handmade paper, which is further utilized in the creation of folders, envelopes, files, and photo frames on campus. This initiative promotes sustainability and reduces the consumption of new resources.

Medicinal Herb Garden: The Dhanvantari Vanaushadhi Vatika is a remarkable garden on campus that houses a wide array of medicinal herbs, including several rare and valuable species. This garden not only serves as a resource for learning and research but also highlights the university's commitment to preserving traditional knowledge and promoting the use of natural remedies.

Organic Farming and Medicinal Plant Cultivation: The Rural Management department at the university actively practices organic farming techniques and cultivates medicinal plants. By prioritizing sustainable agricultural practices, the department contributes to ecological balance and encourages the use of natural and healthy food production methods.

Biogas Utilization and Sustainable Energy: The Rural Management department operates a cowshed that harnesses biogas generated from organic waste. This biogas is utilized to meet the department's daily energy needs, demonstrating the university's commitment to sustainable energy solutions and reducing reliance on conventional energy sources.

Afforestation and Cleaning Drives: Students and staff members regularly participate in afforestation drives to expand green cover on the campus.

Additionally, large-scale cleaning drives are conducted periodically to maintain cleanliness and promote a healthy environment. These initiatives align with the university's vision of environmental stewardship and community involvement.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. There are many institutional practices which are already established in the university from the conception but there are some exclusively introduced during the years. The two best practices are as follows: The first important institutional practice is the introduction of Life Management for the students.

The basic objective of the LM practice is to make the student aware of themselves and to train them how to improve the quality of Life. The LM course is very relevant in the contemporary world as the students are not able to handle the day-to-day life stress and not able to cope up with the quality of Life. The course emphasizes on how to tackle the life difficulties and how to emerge out as a winner. The LM course is basically designed in two segments i.e., for the graduates and for the masters students. The entire program is all

about awareness about the self, Life skills, stress management, life management, Leadership, holistic approach towards the life style. The Bhagwad Geeta and Meditations are also be the part of curriculum. The student's feedback about the Life Management is commendable. The Alumni's had quoted on several occasions that this LM course is helping them in shaping their life, their business problems and it helped them to understand Thyself. There are several stories about the Alumni's and they often share their experience in various Alumni Meetings and technical sessions in various departments. As a suggestion from LM faculty, there are various occasions where we stuck up with the environment and the situations looks unfavourable. Here the calmness and stillness are very important. It is crucial at every juncture of the life and

that is all about to take away from the LM classes. 2. Inclusion of Gyan Deeksha - Invocation Ceremony The other important innovations of the University is the Gyan Deeksha, which is the invocation ceremony that takes place at the first study day of all the students in the University. The University strongly believes that if there could be an end to Deeksha (Deekshant) then there should

be a beginning of the Deeksha too and this ceremony is designed with that objective in mind. Students coming from diversified backgrounds amidst the current technological trends and their orientation towards generic

materialistic mindset that prevails in society surrounding them, its a challenging task to implement such unique practice from day one which connects them directly to the tenets of divine culture. The very beginning of the student and teaching life at the commencement of each semester happens with a traditional invocation ceremony, where the newly joined and existing students, along with the faculty members, are introduced to the value system of the University, as well as the expectations from them while studying or teaching at

the campus. They are welcomed by being felicitated with a Gayatri Mantra Dupatta and a Tulsi sapling, respectively representing that they must aspire for refined intellect and purity in life. Notably, in the past few years, this practice has been replicated by various institutions and campuses as they invite the University team to conduct the same ceremony at the beginning of the new academic year. The success of core teachings of Gyandeeeksha reflects in the lifestyle, behaviour value system of individuals. Such disciplined and cultured graduates are brand ambassadors of such initiative not only as a student while they are studying, rather they spread the noble ideas through their actions in their respective workplace society. They regularly express their gratitude towards DSVV are working as agents of change in society.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

DSVV is committed to nurturing citizens who possess high-quality values and contribute to the social and cultural well-being of the nation. The teachers at the university work tirelessly to cultivate noble souls dedicated to these ideals. Here are some distinctive areas of focus at DSVV: Scientific Spirituality: DSVV offers a unique program in India that combines scientific temperament with spirituality. This program aims to bridge the gap between science and spirituality, fostering an understanding of the intersection between the two fields. Yogic Science: DSVV is recognized as one of the best universities in India for Yoga studies. It offers a wide range of courses in Yogic Science, covering various aspects of yoga, including theory, practice, and its application in different domains. Concept of Yagya: The University promotes the concept of Yagya, which involves performing righteous actions and cultivating a positive thought process. This aspect is deeply integrated into the work-style and ethos of DSVV, emphasizing the importance of ethical conduct and virtuous living. Indigenous Journalism and Psychology: DSVV connects the roots of Psychology and Journalism to the indigenous segments of Indian treatises and culture. By exploring traditional knowledge systems and cultural perspectives, the university aims to provide a unique and holistic understanding of these disciplines. New Segments of Tourism: DSVV's tourism department excels in exploring and promoting new segments of tourism. Rural tourism, spiritual tourism, Health tourism, and Sustainable tourism are areas where the department performs exceptionally well. These segments offer unique experiences and insights into the cultural and spiritual heritage of India. IJYR Interdisciplinary Journal of Yagya Research Yagya research and has a dedicated publication called the IJYR. This journal serves as a platform for researchers, scholars, and practitioners to contribute to the understanding and exploration of Yagya, its significance, techniques, effects, and related areas. It aims to disseminate knowledge, exchange ideas, and foster academic discourse on Yagya. IJYR likely features articles, papers, and studies related to Yagya from various perspectives, including scientific, cultural, spiritual, and holistic. Researchers and scholars in the field of Yagya may submit their work to this journal for peer review and publication. It signifies DSVV's commitment to promoting research and scholarly work in the field of Yagya. The journal likely contributes to the expansion of knowledge and understanding of Yagya's role in Indian culture, spirituality, and well-being.

8.Future Plans of Actions for Next Academic Year

Library of Vedic Manuscripts: DSVV aims to establish a library dedicated to Vedic manuscripts for both academic access and public usage. This initiative highlights the university's focus on preserving and promoting ancient Indian knowledge and wisdom. The library would host a collection of Vedic texts and scriptures, collaborate with experts and scholars of the field as well as traditional Vedic institutions and also preserve, digitize, catalogue and organize manuscripts. Student Clubs: DSVV plans to establish student clubs to provide a platform to students to explore their interests, passions and hobbies outside their academic curriculum. These clubs would also offer opportunities to students in skill development, in community building, in enhancement of their leadership abilities as well as in networking. Tours and Travels Desk: DSVV will establish a Tours and Travels Desk and its Front Office as part of its

facilities. These services shall be designed to assist students, faculty, staff, and visitors with travel arrangements, information, and support. The Tours and Travels Desk may help with organising educational trips, study tours, travel bookings and other related activities, while the Front Office provides assistance with general inquiries, problem solving and administrative tasks.

Center for Artificial Intelligence: DSVV will establish a Center for Artificial Intelligence for research, innovation, education and application. The center aims to conduct cutting-edge research in the field of AI and ML. The center would aim to focus on developing practical applications and technologies based on AI. This could involve creating AI systems, tools, platforms, or frameworks that can be used in various domains such as healthcare, finance, transportation, or manufacturing. The objective is to translate AI research into real-world solutions.

Establishing a Center for Peace and Reconciliation: DSVV envisions taking this significant initiative to demonstrate DSVV's commitment in promoting peace, harmony, and conflict resolution. A Center for Peace and Reconciliation will be dedicated to fostering understanding, dialogue, and peaceful resolution of conflicts at various levels, including interpersonal, societal, and international.
